Q: Are Kwik-Covers safe and durable?

A: You bet! Kwik-Covers are made of a proven PVC material and are a full 3 mil. thick!

•The PVC material is safe, non-toxic and inherently fire retardant.

•It meets all international standards for health and safety.

•The PVC is the world's most researched and thoroughly tested plastic, posing no health risks to consumers in use or disposal.

•This PVC has been safely used in all forms of con-
